Product Description

Ariens Path-Pro 208 Electric Start with Remote Chute - 938033

The Path-Pro is ready to stand up to any snowfall. Its reinforced rubber paddles and adjustable scraper bar easily handle up to nine inches of snow. With its tireless Ariens AX engine, the Path-Pro can throw 57 tons of snow every hour. And with its folding handlebar, it can be stored in tight places, making it perfect for smaller properties.

- Large 21" clearing width and remote chute operation
 - Ariens AX 208cc engine opens easily for maintenance to the spark plug, recoil, and carburetor
 - Engineered for those who move loads of snow from several sites in a given workday
-
