Product Description

Burromax Electric Sportsman Bike, HRH Model

Burromax HRH, our purpose-built trail-bike with a serious blend of power, performance, and off-road adventure in every bike. Whether you're tearing through dirt paths or exploring the backcountry, the HRH delivers with high torque, extended range, and a ride that's as smooth as it is aggressive. It has a stealthy blacked-out design, tuned suspension for bumpy terrain, anodized hydraulic disc brakes for responsive stopping power, and aggressive knobby tires to take you places you can only get with a platform like the HRH. Tack on optional front and rear storage racks, and you're ready for wherever the trail takes you.

Designed for teens, adults, and anyone ready to level up their adventure game, the Burromax HRH is more than a mini bike, it's our off-road solution for all things Sportsman!

Ride Harder. Go Farther. Own the Trail with Burromax.

Features

- **High-Performance Motor:** Experience instant torque and rapid acceleration with the brushless DC motor spinning at 8000 RPM! Perfect for riding back road wooded trails.
- **52V Lithium-Ion Battery System:** Enjoy up to 45+ miles of range on a single charge with impressive efficiency and quick recharge time.
- **Full Suspension System:** Front hydraulic forks and a rear 3-way adjustable mono-shock deliver a smooth predictable ride.
- **Off-Road Tires:** Own the trails with confidence using the HRH's Cat Claw off-road knobby tires.
- **Performance Display:** Speed, distance, battery life, and ride mode at a glance.
- **Adjustable Riding Modes:** Choose from three speed settings to suit beginners, intermediates, or advanced riders. Lockout advanced mode if needed to insure safety when introducing the bike to riders.
- **FULLY UPGRADEABLE:** Sprockets, brakes, handlebars, wheels, tires and much more, Burromax has all the accessories and upgrade kits for you to make your bike stand out of the crowd.
