Product Description

Burromax Electric Drag Bike, XRA Competition Series

Take your ride to the next level with the Burromax XRA, the most powerful and drag race ready model in the Burromax lineup. Built for riders who want serious performance, the XRA combines high torque and high speed in one sleek, aggressive design that can be switch between pit cruiser and drag model in minutes! The XR's are competition-ready featuring our all-new lightweight aluminum frame, anodized hydraulic braking system and a very powerful tune that will set you back in the seat.

Whether you're a weekend adventurer at the drags, a wheelie king or just want the fastest ride in the neighborhood, the Burromax XR Series delivers unmatched style, speed, and performance in a compact, lightweight electric mini bike. Perfect for highly experienced kids, teens, adults, and riders who are ready for more than just the basics.

Features

- All Aluminum Frame: The strongest and lightest weight frames you will find in this size bike! Our XRA has a 21" swing arm keeping the front end down while hammering it off the line!
- High-Performance Motor: Experience instant torque and rapid acceleration with the brushless DC motor spinning at 9500 RPM! Perfect for the race track or just dominating the neighborhood.
- 72V Lithium-Ion Battery System: The higher voltage here makes a difference in performance. Enjoy up to 30+ miles of range on a single charge in slow mode with impressive efficiency and quick recharge time.
- Full Suspension System: Front hydraulic forks and a rear 3-way adjustable mono-shock deliver a smooth predictable ride.
- Track-Road Tires: Own the track and streets with confidence using the XRA's Super Moto style track tires.
- Forged Tripple Trees and Aluminum Bars: Low rise bars with forward offset risers.
- Performance Display: Speed, distance, battery life, and ride mode at a glance.
- Adjustable Riding Modes: Choose from three speed settings to suit beginners (Speed Setting 1), intermediates (Speed Setting 2), or advanced riders (Speed Setting 3). Lockout advanced mode if needed to ensure safety when introducing the bike to riders.

- Bolt on Wheelie Bar Drag Race Kit: Slam the front end, install the adjustable strut in place of the shock and bolt on the wheelie bar and you are ready to race! This thing is FAST in the 1/8 mile capable of 1.4 second sixty foot times with 100lb riders.
- FULLY UPGRADEABLE: Sprockets, brakes, handlebars, wheels, tires and much more, Burromax has all the accessories and upgrade kits for you to make your bike stand out of the crowd.
